

In this profession, the true reward comes from seeing positive outcomes for our patients. Receiving honors from our peers only affords us the chance to turn the spotlight onto our dedicated staff, who always provide the highest quality care and comfort. On their behalf, we're proud to have earned The Northshore's Best recognition as best hospital and best hospice from Sophisticated Women. 80% of healthcare decisions are made by women, that seems quite sophisticated to us.

# WOMEN JUST KNOW.
